Bill Barringer Retires

William (Bill) Barringer, FACI, has retired as the Executive Director of the NM Chapter ACI, effective Spring 2019. During his career, he was a Quality Control Engineer for Albuquerque Gravel from 1966-1986 and retired as a Research Engineer from the NM DOT in 2000. An

ACI member since 1981, Barringer serves on the TAC Construction Standards Committee and ACI Committees 211, Proportioning Concrete Mixtures, and 214, Evaluation of Results of Tests Used to Determine the Strength of Concrete. He has received the ACI Chapter Activities Award and the ACI Certification Award.

Barringer co-founded the NM Chapter ACI in 1984 to help improve the level of concrete testing in the state of NM. He has served as Chapter President, Vice President, Secretary/Treasurer, and Director. He has been the Chapter's Executive Director since 2005.

Barringer published "Using Accelerated Test Methods to Specify Admixtures to Mitigate Alkali-Aggregate Reactivity" in *Cement, Concrete and Aggregates* and "Application of Accelerated Mortar Bar Tests to New Mexico Aggregates" in the *ICAAR Proceedings Quebec 2000*. Bother Articles provided mixture proportion levels and the type of fly ash to be used in Concrete in NM.

Currently, the Chapter provides certification classes to approximately 100 people per year. Barringer has served as Examiner of Record for practically every class. The Chapter has qualified as an Excellent Chapter for several years and more recently was named an Outstanding Chapter. (*Concrete International Magazine, May 2019 Edition*)

Ken Wylie, Wood, is now the Executive Director with assistant Jane Jernigan

2019 Annual Golf Tournament

We enjoyed some beautiful weather and great golf at the 22nd Annual ACI NM Golf Tournament at Sandia on May 24th. Thank you to our sponsors, players & volunteers who made it a successful tournament.
